The medal is solid gold, the size of a twenty dollar gold piece. On one side is a vignette of Queen Victoria with the following motto: Victoria D: G: Blitanmanum Regina F: D:" On the average side is a vicenth and crown with the words: "Presented by the British Government for Saving the Lives of British Subjects." On the edge of the medal appears the captain's name and the date of the rescue Ma ch 14, 1886. The medal is very handsome and can be worn on the watch chain, and will make an excellent companion piece to the watch and chain presented to Capt. Mahoney for saving the crew and passengers of another wirecked steamer. The British Board of Trade recently awarded testimonals to Capt. Mahoney for services rendered.

School Bocks,

The Democratic election judges had things all their own way in Arkansas, and mani ulates the vote to suit themselves. in fact they and not the voters fixed the majo ity so that Arkansas stands solid for Cleveland and "reform,"

are being prepared for the exhibition of the tirant relies presented to the Government by Mr. Vanderbilt and Mrs. Grant, and intrusted to the museum by act of trophies on exhibition before the time of reas embling of Congress. /

The New York Star, the organ of the Administration, and the Young Men's morratis Club are seeking to prevent the renomination of the slx Democratic Congressment in that State who voted aga hat the Morrison free trade bill, and yet it is occasionally asserted on the eve of an election that the Democratic party is not a free trade party. This certainly looks verishmuch like it, however.

predecessor for partisanship reads very funny in the light of recent events. He is running the Pension Department wide open for the Democracy, even carrying his partisanship to such an extent that he discharged a Democratic employe because he refused to do his political dirty work. Bl; ck is not a success in the role of a re-

fix-tiov. St. John now predicts that the Resublicans will not carry ten States in 1888. This is the same St. John that came into Maing with the avowed determination of smasking" the Republican party, but the smasting process was not successful. He is simply a politician for revenue only, but the Maine Democrats are now mourning over their investment fir St. John and said "orator" will doubtless soon learn

The Minnesota Republicans passed unanimously a resolution congratulating Mr. Rlaine on the splendid victory in this State and inviting him to take part in the Minnesota campulgu. Andrew R. McGill, the gubernatorial nomince, was born in Crawford County, Pa., February 19, 1840, in the same old homestead wherein his father was born and lived from the time of the revolution, in which he participated, until his death. In June, 1961, he went to Minnesota and settled in St. Paul. He taught school there until August, 1862, when President Lincoln called for an additional 600,000 troops to aid in suppressing the rebellion. Mr. McGlll then | enlisted as a private in Captain Spard's company, 9th Regiment Minnesota Infantry Volunteers. He served in the army one year and was discharged on account of pulmonary troubles: In 1864 and 1865 Mr. McGill edited and published the St. Paul Tribune, he still owner. He was elected clerk of the District Court and served one the bar by Judge, afterwards Governor, Austin. In 1876 he accepted the position of private secretary to Governor Austin at the beginning of his official term and retained that position during the four years of Governor Austin's administration. He was appointed insurance commissioner by Governor Austin, reappointed insurance commissioner by Governor Austin, reappointed insurance commissi full term of four years. In 1868, after

The report comes from New York that in a private conference of the Democratic State Committee it was decided to adopt resolution endorsing the Administration but when of Gov. Hill he promptly vetoed the prop osition. The Democratic Governor is just now looking out for Hill.

Anybody who takes he trouble to examine the Times's map of Allaska will find that Icy Bay is indicated upt south of Mount St. Elins by a mere curve in the coast line, suggesting a region of geographical mysteries reserved by destuy for Mr. Jones and Lieutanant Schwalka to explore. There is no sign of a digit let bay at this point on the Times's "large and accurate map," and of course the sland sone River. Eust and west of Icy Bay there are plenty of rivers shown on this map running down from the mountain range to the sea.

there are plenty of rivers shown on this map running down from the mountain range to the sea.

Why does not The Times's map indicate the river which has been named after Mr. George Jones? Is it because its existence was not known until The Times 'expedition" arrived at that point of the coast? Mr. Schwarka says: "t was not supposed that such a river exated in that part of Alaska." The Times says editorially that its explorers "discovered and named" the river. And yet if hr. George Jones or Lieutenant Schwarka had consulted the excellent map of Alaska drawn seventeen years ago by hr. W. F. Dall, discetor of the scientific corps of the Wester 1 Union Telegraph Company's Expedition of 1865—183, they might have been spared the trouble and expense of a journey of eight thousand miles to discover a stream already discovered. Mrs. W. K. Morison, of Belfast, and her sister, Miss Mattie Pendleton, of Searsport, were driving through a plece of woods in East Jefferson last week, when two tramps made an appearance and stopped their horse. The women did not lose their presence of mind. Miss Mattle struck the horse with a stick while Mrs. Morison handled the reins. The horse just cleared the tramps. But for their prompt action they might have been assaulted.

In addition to the above, might be menioned, that it takes about 3,500 colds of hard and soft wood to burn that number

The bricks as shown by the table are worth about \$50,000 on the kiln ground ready to ship. It costs about \$2.00 to cast them to the wharves, all of which goes into the pockets of Brewer true cmen. It will take about one hundred and seventy-five sail of vessels, average capacity of brick coasters, to carry them to market,

or, if shipped by tail, it will take about two thousand cars to carry them. ,
Thus taking the business from the beginning, the cutting and hauling the wood n the winter, to the shipping of the or eks in the fall, t gives employment to a large number of men, houses, vessels and care, and consequently represents a much larger sum of money than that quoted ab we-
